Electronic Fly Killer Sales & Maintenance

In the food industry flies can be extremely problematic as they can spread bacteria and disease.

Electronic fly killers are the most effective way of controlling and killing flies.

For electric fly killers to remain effective it is important to maintain and service them regularly.

Pigeon control and proofing

Feral Pigeons cause millions of pounds worth of damage across the UK every year.

Pigeons roost on ledges, sloping roofs and under bridges destroying insulation, defacing surfaces and blocking pipes and gutters with droppings. Pigeons also carry diseases which are a serious health risk.

CSS Pest Services provide a pigeon control service which includes:

- ✓ Clearing pigeon mess and droppings
- ✓ Disinfecting the area
- ✓ Installing all types of pigeon proofing systems including netting, spikes, pin and wire and other bespoke systems

Pest maintenance agreements

Food related businesses are at constant risk of having pest problems. Therefore it is good practice to employ the services of a professional pest control contractor.

A pest maintenance agreement with CSS Pest Services is tailored to suit your requirements and provides the following:

- ✓ Regular scheduled inspections by our pest control technicians
- ✓ Free call outs*
- ✓ Pest monitors installed throughout your site
- ✓ A fixed price for the term of the agreement
- ✓ Service Folder (containing visit details, contract specifications, site risk assessments, pesticide safety data and useful contact numbers)
- ✓ Emergency Help desk
- ✓ Unusual Insect Identification

*Sites receiving 8 visits and above per year receive a Free call out facility
